NLP and Word Embeddings

Using word embeddings

Named entity recognition example

Transfer learning and word embeddings

- 
1. Learn word embeddings from large text corpus. (1-100B words)
(Or download pre-trained embedding online.)
2. Transfer embedding to new task with smaller training set.
(say, 100k words) → 10,000 → 300
3. Optional: Continue to finetune the word embeddings with new data.
